AKI & CRRT 2015 Posters
Posters available courtesy of authors, not all posters presented at the Conference are available online (click on author name to download pdf).

Epidemiology and Outcomes from AKI

2. The predictive value of different renal function measures for mortality after cardiac surgery based on traditional s-creatinine and novel s-cystatin C
Alain Dardashti Poster

4. Delta Neutrophil Index is an Independent Predictor for Mortality of Septic Acute Kidney Injury Patients Treated with Continuous Renal Replacement Therapy
Young Eun Kwon Poster

7. Association of Oliguria with 90-day Mortality in the Critically Ill
Suvi Vaara Poster

10. Comparison between different estimates of Glomerular filtration rate during cardiac surgery
Henrik Bjursten Poster

12. Clinical Characteristics in Critically Ill Patients of Alcoholic Ketoacidosis with Acute Kidney Injury
Young Sub Kim Poster
14. Impact of Improvement of Cardiac Function after Cardiac Valve Surgery to the Renal Outcome in Preoperative Renal Dysfunction Patients
   Jiarui Xu Poster

17. Risk factors of Long-term Survival and Progressive Chronic Kidney Disease Associated with Acute kidney injury after cardiac surgery
   Yimei Wang Poster

18. Acute Kidney Injury in the Pediatric Critical Care Unit: Factors Associated with Nephrology Involvement and Follow Up
   Chloe Butler Poster

22. Impact of Fluid Balance on Non-renal Organ Recovery in Critically Ill Children Requiring Continuous Renal Replacement Therapy
   Sachin Tadphale Poster

23. Prevalence and outcome of acute kidney injury in Chinese hospitalized patients in a single center
   Yimei Wang Poster

24. Myocardial Reperfusion Score By Coronary Angiography And Contrast Induced Nephropathy. A Cohort Study.
   Benjamin Mora Poster

25. Validation of four Scores to Predict Contrast Induced Nephropathy in a Mexican Population.
   Marcos Rodriguez Poster

27. Acute Kidney Injury post Cardiac Surgery and the Development of Chronic Kidney Disease in Congenital Heart Disease Survivors
   Nicolas Madsen Poster

28. Divergence of Serum Creatinine and Urea in Survivors of Critical Illness: Implications for Assessment of Renal Function and Nutritional Status during Recovery
   John Prowle Poster

31. Acute Kidney Injury is More Common in Neonates with Single Ventricle Heart Disease After Surgical Norwood than Hybrid Stage I Palliation
   David Cooper Poster

**Research in AKI**

33. INCIDENCE AND OUTCOME OF ACUTE KIDNEY INJURY ON RENAL REPLACEMENT THERAPY PATIENTS IN A TERTIARY CARE CENTRE
HARITHA SUBRAMANYAM  Poster

34. Improving the Gold Standard: Can Urine Biomarkers Help Refine AKI Definition in Premature Infants?
David Askenazi  Poster

37. The Commonly Used Surrogates For Baseline Renal Function In Acute Kidney Injury Diagnosis
Wisit Cheungpasitporn  Poster

38. Role of NA/K Citrate in Prevention of Contrast Induced Acute Kidney Injury following Cardiac Catheterization
Hala El-Wakil  Poster

39. Common Chronic Comorbid Conditions Do Not Affect Performance Of Cell Cycle Arrest Biomarkers For Risk Stratification Of Acute Kidney Injury
Michael Heung  Poster

40. Follow-up Renal Assessment of Injury Long-term after Acute Kidney Injury (FRAIL-AKI)
David Cooper  Poster

41. Prediction of The Development of Delayed Graft Function Using Acute Kidney Injury Criterion In Kidney Transplantation From Deceased Donors
Bae Myoung Nam  Poster

42. Better Early, Late, or Never? Continuous Renal Replacement or Rhabdomyolysis Induced Acute Kidney Injury
Tara Paterson  Poster

43. LONGER SESSIONS OF POLYMYXIN-B IMMOBILIZED FIBER COLUMN HEMOPERFUSION (PMX) AMELIORATE RENAL OUTCOME AND MORTALITY IN SEPTIC SHOCK WITH ACUTE KIDNEY INJURY
Hiroshi Maekawa  Poster

44. Acute Kidney Injury After Transcatheter Aortic Valve Replacement: A Meta-Analysis
Wonngarm Kittanamongkolchai  Poster

46. Dichloroacetate (DCA) Prevents Cisplatin-Induced Acute Kidney Injury (AKI) By Regenerating Renal Tubular Cells
Ramindhu Galgamuwa Arachchige  Poster

50. Even Modest Fluid Overload is Associated with Mortality in Critically Ill Patients with Acute Kidney Injury
Vikram Balakumar  Poster
51. Advance Prediction of AKI Based on EHR Data
Steve Rust Poster

52. AMPK Activator AICAR Attenuates Acute Kidney Injury in Experimental Model of Sepsis
Noureddin Nourbakhsh Poster

53. Kidney Injury Molecule 1 (KIM-1) as a Biomarker for Contrast-Induced Acute Kidney Injury
Hala El-Wakil Poster

54. Role of AMPK Activation in the Renal Response to Sepsis
Hernando Gomez Poster

55. Prediction Of Milrinone Pharmacokinetics Using Kidney Injury Biomarkers In Infants Following Cardiac Surgery
Katja Gist Poster

57. Fluid Overload and Elevated Cell Cycle Arrest Biomarkers Independently Predict Death of Renal Replacement Therapy Following Acute Kidney Injury
Sean Bagshaw Poster

60. Flow Mediated Dilation and Acute Kidney Injury Prediction in Vascular Surgeries
MAURICIO TEIXEIRA Poster

62. An In Vitro System for Investigation of Sepsis-Induced Acute Kidney Injury: Identification of IGFBP7 Expression in Isolated Human Proximal Tubule Epithelial Cells
David Emlet Poster

RRT Technique Characteristics

64. Smaller Circuits for Smaller Patients: Improving Renal Support with the Aquadex™ Machine
David Askenazi Poster

65. Continuous Renal Replacement Therapy for Hyperammonemia caused by Ornithine Transcarbamylase Deficiency
Masaaki Nunomura Poster

66. Peptide and Protein Sieving During Hemofiltration With Various Filter Membranes
John Baird Poster
**67. Accelerated CRRT Circuit Exchange During Pediatric ECMO Therapy: An Alternative Technique to Reduce Transfusion Requirements**

Dawn Eding  
*Poster*

**68. Renal Replacement Therapy With Regional Citrate Anticoagulation in Post-Operative Liver Transplantation**

Stefano Pini  
*Poster*

**70. Continuous Renal Replacement Therapy in a Neurocritical Care Unit**

Paul McCarthy  
*Poster*

**71. Validation of the NxStage System One Volumetric Method for Measurement of Effluent Volume During Ultrafiltration - A Hospital QA Project**

Robert Isom  
*Poster*

---

**RRT Applications and Targeted Interventions**

**74. Experience in CRRT using PRISMA Monitor in the ICU of a University Hospital in Northeast Mexico**

Topete Rizo  
*Poster*

**77. A Predictive Model for Successful Conversion of Continuous Renal Replacement Therapy to Intermittent Hemodialysis**

Park Ji Hyeon  
*Poster*

**78. Continuous Renal Replacement Therapy to Treat Severe Metformin Induced Lactic Acidosis**

Jeffrey Klein  
*Poster*

**79. Severe Lupus flare presenting with Acute Renal Failure, Diffuse Alveolar Hemorrhage and Respiratory failure successfully managed with Extracorporeal Membrane Oxygenation (ECMO), Continuous Venovenous**

Naveed Anwar  
*Poster*

**82. Blood Product Administration is Not Associated with Unscheduled Filter Change in Pediatric Continuous Renal Replacement Therapy**

Leyat Tal  
*Poster*

---

**New Technology**

**83. Assessment of the Compatibility of the Improved 5L ACCUSOL CLEAR-FLEX Product Design With the Prismaflex System**
Damien Valkeners Poster
84. Understanding Acute Kidney Injury (AKI), One Patient At A Time
Alan Rosenbloom Poster

RRT Research
87. Postoperative Fluid Overload Predicts Short-term Outcome of Renal Replacement Therapy for Acute Kidney Injury after Cardiac Surgery
Jiarui Xu Poster

89. Vancomycin Clearance in an Infant Receiving Extracorporeal Liver Support and Continuous Renal Replacement Therapy
Ji Lee Poster

90. Dialysis Hypotension in Hospitalized Patients: Effect on Ultrafiltration and Clearance
Cruz Dinna Poster

Nursing Issues
91. Reducing Hemodynamic Instability: Circuit to Patient Patient to Circuit Priming
Suzan Miller-Hoover Poster

92. Vancomycin dosing in patients on Continuous Veno-Veno Hemodiafiltration
Yezina Nigatu Poster

95. Implementation of a CRRT Program: A University and Community Hospital Collaboration
May Brown Poster
